PROFESSIONAL EXPERIENCE

Java Full Stack Developer Intern @ AMDOX TECHNOLOGIES

12/2025 – 02/2026

- Worked on Java and Spring Boot-based full-stack web applications.
- Assisted in developing REST APIs, backend services, and database integration.
- Collaborated with frontend developers for smooth frontend-backend integration.
- Gained practical industry exposure through project-based work and mentorship.

PROJECTS

Food Delivery Management System

2026

- Developed a full-stack web application using Spring Boot and Thymeleaf for managing food orders, customers, and inventory
- Implemented CRUD operations and structured the application using MVC architecture (Controller, Service, Repository layers)
- Integrated MySQL database using Spring Data JPA (Hibernate) for efficient data persistence
- Built secure authentication and role-based access control for Admin and Staff users
- Designed dynamic and responsive UI using Thymeleaf, HTML, CSS, and JavaScript
- Used Maven for dependency management and project build automation
- Applied clean code practices and modular design for maintainability and scalability

SKILLS

- **Languages:** Java | Python(Basic) | SQL
- **Backend:** Hibernate, Spring Boot
- **Coursework:** Object Oriented Programming | RDBMS
- **Databases:** MySQL | Oracle | PostgreSQL
- **Developer Tools:** IntelliJ-Idea | Git-Hub | VS Code | Eclipse IDE
- **Other :** Maven, Jira

ACHIEVEMENTS

- Qualified in NMMS Examination.

EXTRACURRICULAR

PGMCOE Techno-meet | Circuit Design

- Actively participated in circuit design competition.
