Education

Parvatibai Genba Moze College of Engineering <i>Bachelor of Engineering in Electronics & Telecommunication Engineering (GPA: 7.90 / 10.00)</i>	2023-2027 Pune, Maharastra
Kota Mentors <i>Higher Secondary Certificate (HSC) : 71.67%</i>	2022-2023 Karjat, Maharashtra
PJN Vidyalyaya <i>Secondary School Certificate (SSC) : 83.40%</i>	2020 - 2021 Karjat, Maharashtra

Experience

Amdox Technologies <i>Java Full Stack Developer Intern</i> - Developed and maintained full-stack web applications using Java, Spring Boot, and Thymeleaf. - Designed and implemented RESTful APIs and backend services for application functionality. - Integrated MySQL databases using Spring Data JPA (Hibernate) for efficient data management. - Collaborated with frontend developers to ensure seamless frontend-backend integration. - Debugged and tested 7+ application features before deployment. - Collaborated with a team of 3+ developers to integrate frontend and backend modules. - Followed MVC architecture, clean coding practices, and Maven for dependency management. - Supported application debugging, testing, and deployment.	Nov 2025 – Feb 2026
--	---------------------

Projects

Food Delivery Management System <i>Java, Spring Boot, Hibernate, Thymeleaf, HTML5, CSS3, JavaScript, MySQL</i> - Developed a full-stack Food Delivery Management System using Java, Spring Boot, and MySQL. - Designed and implemented CRUD operations for managing food orders, customers, and inventory. - Integrated MySQL database using Spring Data JPA (Hibernate) for efficient data management. - Followed the MVC architecture to create a scalable and maintainable application. - Designed a responsive user interface using HTML, CSS, JavaScript, and Thymeleaf. - Used Maven for dependency management and project build automation. - Applied clean coding practices, debugging, and testing to ensure application reliability and performance.

Technical Skills

Languages: Java, SQL, HTML5, CSS3, JavaScript
Technologies: Spring Boot, Spring Data JPA, Hibernate, REST APIs, Maven, Git, GitHub
Databases: MySQL, PostgreSQL
Developer Tools: Eclipse IDE, Visual Studio Code, Jira
Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, MVC Architecture, CRUD Operations

Achievements

- Qualified the National Means-cum-Merit Scholarship (NMMS) Examination among thousands of applicants.
- Successfully completed a Java Full Stack Developer Internship at AMDOX Technologies.
- Developed a full-stack Food Delivery Management System using Spring Boot and MySQL.

Extra-Curricular Activities

- Participated in 2+ Google for Developers programs, including Build with AI and Prompt Wars, gaining hands-on experience in Generative AI and prompt engineering.
- Built AI-powered applications and explored modern software development practices.
- Actively practice Data Structures & Algorithms to improve coding and problem-solving skills.
